The First Of Two Washington County Scandals

Last night Gordon city was struck into the heart of their local government.

A group of government officials, specifically law enforcement, were caught flipping peoples' beds and mattresses for absolutely no reason at all. Even spitting was involved during the attack on the city over the entire last few days. The whole city is in outrage and so a court hearing was issued within the city's own law enforcement.

The official charge was issued against these four city officials are as follows: Violation of sections 6, 7, and 8 of the Gordon city charter; Violation of section 8 of Gordon city ordinance.

This was an outrageous betrayal within the city's government. But thankfully the government and it's people, contained the situation at hand and came to a decision on how to deal with this mess.

Gordon city's Mayor made an official statement, to which he brought the charges above, down on these men. Now we wait, as Gordon city's government brings closure to their citizens.

Special points of interest:

- Will it get better for Washington county, or will our government implode within itself?
- Col. Preczewski's Speech at today's first General Session was amazing.
- County General Elections went great today!
- The second death report in Talmadge City was filed today!
- Who'll win this years State Primary Elections?

Quote Of The Day

"It means if you start something make sure you see it through, make sure you finish it, because if you don't you're going to always wonder why you didn't finish what you started" - Anonymous

- RUSSELL - 30
- SMITH - 50
- STEPHENS - 60
- TAIMADGE - 80
- TOOMBS - 40
- WALTON - 40

Never Forget

If we don't remember, then who? A small group of volunteers got together 7 years ago in Dalton, GA to ensure that we remember those who have served.

Our mission is simple: Give our community an opportunity to come together and honor them and their families. From the heart felt ceremony, the Memorial Wall of our local veterans who have passed, free lunch, activities for all ages, and the opportunity to talk to others who share that same belief as you; the belief that we would not be here without the Grace of God and the soldiers who paid the sacrifice for us.

Freedom has never been free and it is up to us to never forget and, to teach the generations following where our freedom in these United States came from. Not from one person, but rather the shoulders of many.
